Claims 51-82 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the paper filed on 3-22-4.

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-50 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-50 of prior U.S. Patent No. 09/247,009. This is a double patenting rejection.

To further clarify, although some of the instant claims are differently worded than claims of the prior patent, they define the same invention.

Specifically, the grammar of the instant claims differs slightly from that of the prior patent, but the differences are not semantically significant, and the scope of the instant claims is the same as the scope of the prior patent claims.
